## WORK EXPERIENCE

### City Government of Lipa (MIS Office)

Lipa City, Batangas, Philippines

Role: Software Developer Intern

April - June 2026

As part of an internship with the Lipa City Government's MIS Office, we built a full-stack Scholarship Management Web Application using ASP.NET Core MVC, SQL Server, and Entity Framework Core, incorporating features like role-based permissions, document verification, automated email alerts, and CSV reporting to support scholarship applicants and scholar management. I also collaborated with a development team using Git and GitHub, handling branching, pull requests, and merging conflict resolution to maintain a shared codebase.

## EDUCATION

### National University - Lipa

Lipa City, Batangas, Philippines

Bachelor of Science in Computer Science Specialization in Machine Learning

2022-2026

## TECHNICAL SKILLS

Languages and Web Frameworks: Java, JavaScript, TypeScript, PHP, Python, SQL, React, Node.js, Flask, ASP.NET, Flutter

## PROJECTS

### Student Attendance System Using Deep Learning–Based Facial Recognition

2025

Developed an automated attendance system using Haar Cascade Classifier for face detection and FaceNet InceptionResNet-V1 for generating facial embeddings. The system uses camera captured images to record attendance on a computer or web-based platform.

### Using KNN on Predicting Enrollment Probability for NU Lipa Admission

2025

A Django-based student admission system for NU Lipa, allowing student registration, admin management, and future ML integration for processing applications.

### GIS-Based Mapping of Coffea Liberica Farms in the Province of Batangas

2026

Developed a GIS-based geo-mapping system for documenting and visualizing the spatial distribution of *Coffea liberica* (Kapeng Barako) farms across Batangas using Google Maps API. Integrated CNN-based plant identification outputs with GPS-tagged farm data to produce an interactive, traceable map of verified Liberica farms in the province.

### EBA Scholarship System

2026

Built a full-stack scholarship management system for the City Government of Lipa using ASP.NET Core MVC, SQL Server, and Entity Framework Core, with features like role-based access, online applications, and a data visualization dashboard. I also worked with a team using Git/GitHub for code reviews and managing a shared codebase.

## CERTIFICATIONS AND PARTICIPATIONS

IC3 Digital Literacy Global Standard Six – CERTIPORT (2025) | Base Build Calabarzon | Certificate of Participation Holder (2025) | Prompt Engineering Specialization – Coursera (VANDERBILT UNIVERSITY) | Chatgpt Advanced Data Analysis – Coursera (VANDERBILT UNIVERSITY) | Html, CSS, And Javascript for Web Developers Specialization – Coursera
